

BASSANO, ALBERTA, THURSDAY, May 13, 1927

## Choose Good Location For Swimming Pool

Size and Appearances of Pool will be According to Money Available

After much discussion, and delay the site for the swimming pool has at last been decided upon. That it is located on the site of the old school pool committee and the town council are concerned, and the Canadian Pacific Railway, the other party in the transaction, appear to be agreeable.

The pool will be located on second street, on the lot fronting east, just south of the school grounds. This location was one of the first to be considered by the swimming pool committee. The property is owned by the C. P. R. and the first attempt to negotiate for enough ground on which to build the pool was a failure. The committee then looked about for another site, but nothing was decided upon, and when the C. P. R. again opened negotiations, the matter came back to the choice of the first location.

Five or six lots will be acquired. This will give plenty of room for planting trees and shrubs around the pool and making the grounds into a little park. At present the swimming pool committee plan on building a pool measuring 40 feet by 100 feet. The pool will be eight feet deep at one end, and will slope upward to the other end of feet at the other. The walls and floor will be built of concrete. If sufficient money is not raised the committee may find it necessary to change these plans.

### BANFF HOTEL ENLARGED

Banff, Alberta.—Word comes from the Engineering Department of the Canadian Pacific Railway that when the Banff Springs Hotel opens on May 15th, for the summer season, the north wing of the building will have been completed and ready for occupancy. Next year at the same date the south wing will have been rebuilt, when there will be at the Banff Springs a hotel of over 200 rooms and baths, as well as the other splendid accommodations.

## Countess News

COUNTRESS, May 12th.—Although it was a very stormy day a good number turned out for the Mothers' Day program.

Fred Robinson was in Gem on business last Sunday.

Little Marianne Gamble was taken very sick on Thursday evening. Dr. Scott was called and the baby was taken to the Bassano hospital on Friday morning, where she remained over Sunday. She is home again and quite well.

Ralph Burrows was a Calgary visitor over the weekend.

There will be a meeting of the C. C. Club on Monday, May 15th, to elect new officers for the coming year.

## GEM THEATRE PROGRAM

Come and do your stuff

## Duchess News

DUCHESSE, May 12.—Mr. and Mrs. Galbraith went to Maple Creek, Friday night, returning on Sunday.

Claude Raman returned from Calgary Friday.

The Olsson family are leaving for the C. P. R. building section house.

Mrs. Boychert and children spent Tuesday in Bassano.

Allice Stafford, of Brooks, spent a few days here the guest of her sister, Miss Grace Stafford.

Rob Craib, of Hussar, came in Monday evening, returning to Hussar Tuesday where he will work this summer.

Mrs. Galbraith and son Donald went to Calgary Tuesday. They will return Friday evening, bringing Mrs. Galbraith's car. He spent the summer here.

D. F. Hall, was in Brooks Wednesday on court business.

Mr. Rogers of Brooks, was in town for a short time Wednesday.

John Abrahamson, Mrs. Hanson, and Helen Anderson were in Bassano Wednesday having dental work done.

The Duchess W. L. McLean, was in town for a short time Wednesday.

Mrs. Anderson gave a very interesting and instructive paper on naturalization and Canadianization.

The secretary, Mrs. Nimmons, read a letter in regard to the convention to be held in Edmonton. We are expecting our convener, Mrs. Tuttle, to be with us in June. At the close of the meeting refreshments were served by Mrs. Gibson and Mrs. Edwards.

Mrs. Bob and Jim Dunmore, and Miss Rita Carrington spent Wednesday evening in Brooks.

Mr. Hanson Sr. was in Bassano on Wednesday to consult Dr. Scott.

## Baseball Club

### Get Organized

Plans Laid for a Good Season of Baseball in Bassano

Wednesday night a meeting of baseball fans was held in the Radio shop to re-organize the Bassano Baseball Club. The following officers were elected:

Dr. B. E. Barlow was chosen chairman of the meeting.

Vice pres.—Bruce Hall

Sec. treas.—Hux Johnston

Manager.—Kloyd Joseph

Field captain.—Ralph Burrows

Vice captain.—George LaPage

Dr. B. E. Barlow, Dr. A. G. Scott, Mr. R. Milroy, H. T. Johnston, R. F. McDonald, and Chas. Western, were chosen a booster committee to promote the interests of the game.

### SWISS FOR CANADA

Winnipeg, Manitoba.—Eight hundred families from Switzerland are expected to come out to Western Canada to settle during 1927, according to the Acting Consul for Switzerland here. There are thirteen Swiss settlements in the district of Lake Louise, Manitoba, and Thiering, Alberta.

## GOLF NEWS

A team of Bassano golfers is going down to Brooks this Sunday to play a friendly game on the Brooks course. It is expected that ten or twelve players will make the trip.

Sunday saw a number of golfers on the local course. After the rainy weather everything was less on the course. The greens and fairways are all in good shape, and golf can be played under ideal conditions.

Now that the long evenings are here, a great many golfers get out and have a round or two after supper.

All members should say up their dues as the club needs the money. It takes money to run a golf club, and as membership dues are the only source of revenue, the club would like to get them in as soon as possible.

A fine program of stampede events has been prepared for the day, the events including bucking horse riding with saddle and bareback, steer riding, free for all horse race and races for boys, ladies, Indians, and squaws with horse races, relay race, barrel race and demerol race.

## HUSSAR GETTING READY FOR ANNUAL STAMPEDE

Committee are Building Program for Victoria Day Celebration — Community Hall will be Ready for Opening Dance

The 24th of May is "Hussar Day" for that is the day of the big annual Hussar Stampede. As the date for the event approaches, plans for the program are being completed, and everything is being made ready to put on a celebration that will exceed in size and popularity those of former years.

Now an Even  
**Greater Car Scoring  
an even Greater Success**

YOU know how all the resources of  
General Motors were used to make  
the original Pontiac Six the finest car  
the field of low priced cars. You know the wild success that resulted.

But do you know that the present day Pontiac—  
at its new low prices, is a new and finer six—an  
even greater car that is scoring an even greater  
success?

It offers the added appeal of new Fisher bodies—  
longer, lower, roomier and finished in new and  
striking combinations of enduring Duco.  
It embodies important mechanical refinements—  
tilting-beam headlights with foot control, new  
transmission and brake levers, oil-tight universal  
joints and a clutch even smoother in action.

It provides in full measure those basic Pontiac  
qualities that took all America by storm—those  
qualities of stamina, economy and long life which  
were developed by over three years' testing on  
the great General Motors Proving Ground!

Small wonder that the title of public preference  
is turning to the Pontiac Six—no longer but to  
another six in the low-priced field!

### THE MARCH OF PROGRESS

The world wheat pool conference  
at Kansas City has been brought to  
a close. The gathering was the second  
annual event of its kind, and was  
attended by representatives from  
Alberta, Saskatchewan, Manitoba,  
Kansas, Oklahoma, North Dakota,  
and Australia.

In the opinion of the delegates, the  
time for an international grain mar-  
keting agency has not yet arrived.  
This point was stressed by G. W. Rob-  
ertson, secretary of the Saskatchewan  
Wheat Pool, who said: "The aim of  
commodity co-operation is to stabilize  
prices by limiting speculation.  
Pool operations on a fairly large  
scale has tended to limit speculation,  
and it is the purpose of the co-opera-  
tive marketing movement to estab-  
lish a price for wheat on a level  
above those other commodities which  
the producer must purchase."

The speaker declared the conference  
must be successful "This inter-  
national development is not rushed  
faster than the wheat growers of the  
world are prepared to endorse it.  
The immediate problem is not inter-  
national selling, but international  
co-ordination."

The enthusiasm and optimism dis-  
played by the delegates of the world  
conference reflects the popularity of  
co-operative marketing, and the rapid  
 strides it is making in the wheat  
producing countries of the world.

The wheat pool plan is based on  
sound logic. The farmer grows the  
wheat. The miller buys it. It is  
simply a matter of good business that  
the farmer should sell to the miller  
instead of selling to a grain agent.  
The grain agent buys the grain from  
the farmer, sells it to the miller, and  
makes a good profit on the transac-  
tion. He also makes a big profit by  
mixing the grades. He mixes a small  
quantity of the "best" wheat with a  
large quantity of poorer quality  
building up the grade to where he  
can get several cents a bushel more

### PROVINCE OF ALBERTA

### VILLAGE ACT

### NOTICE

NOTICE is hereby given that, pursuant  
to the provisions of The Village Act  
in that behalf, a petition has been  
presented to the Minister or  
Municipal Affairs, praying for the  
erection of all those portions com-  
prised within the following bound-  
aries which may be more fully de-  
scribed as follows:

Commencing at the centre of Sec-  
tion 14, Township 24, Range 20, 20th  
Meridian, thence easterly along the  
north boundary of the south-east  
quarter of the said section and its  
production to a point on the north  
boundary of the south-west quarter  
of Section 15, Township 24, Range 20,  
20th Meridian, where it intersects  
the easterly limit of First Street  
West, as same is shown on a plan of  
subdivision registered in the  
Titles Office for the South Alberta  
Land Registration District at Calgary  
as No. 6789 A.M., thence southeasterly  
on a line parallel with the northerly  
limit of First Street West, as same  
is shown on Plan 6789 A.M. aforesaid,  
to its intersection with the easterly  
limit of First Street East, produced  
thence south-westerly along the  
easterly limit of First Street East  
as produced to the northerly  
limit of Third Avenue,  
thence south-easterly along the north  
limit of Third Avenue to the easterly  
limit of Third Street East, Thence  
south-westerly along the easterly  
limit of Third Street East, to the  
northerly limit of Second Avenue,  
thence south easterly along the  
northerly limit of Second Avenue and  
its production to the north boundary  
of Section 12, Township 24, Range  
20, 20th Meridian, thence southeasterly  
along the north limit of Section 12  
aforesaid to the north-east corner  
thereof, Thence south along the  
westerly boundary of Section 12 aforesaid  
to the intersection of the southerly  
production of the southerly limit of  
First Street West, as same is shown  
on Plan 6789 A.M. aforesaid, lying parallel with and 116  
feet perpendicularly distant from the  
centre line of the Bassano to Irrigation  
branch of the Canadian Pacific Rail-  
way, Thence north along the  
southerly limit of the aforesaid road  
to the north boundary of the north-  
east quarter of Section 11, Township  
24, Range 20, west of the 4th Meri-  
dian, Thence west along the north  
boundary of Section 11 aforesaid to the  
intersection of the production of the  
southerly limit of First Street West,  
as same is shown on a plan registered in the  
Titles Office for the South Alberta  
Land Registration District, Calgary,  
as No. 6488 D.M. Thence north-westerly  
along the southerly limit and  
the production of the aforesaid  
road to the west boundary of the  
southeast quarter of Section 14,  
Township 24, Range 20, west of 4th  
Meridian, Thence north along the  
west boundary of the south-east quar-  
ter of Section 14 aforesaid to the  
point of commencement, into a  
Village, and that all objections to  
the organization of such territory in  
to a Village must be filed with the  
aid Minister on or before June 2nd,  
1927.

(Signed) R. G. REID  
Minister of Municipal Affairs  
Province of Alberta

for it. The profits in mixing grain  
are enormous. With the wheat pool  
using their own mixing and grade  
building these profits will be returned  
to the farmer.

The success of the wheat pool de-  
pends upon vision and faith. An  
organization of the dimensions of the  
wheat pool is a tremendous under-  
taking. It may take years of work,  
planning and experimenting to bring  
it to the highest degree of efficiency.  
But the principle on which the wheat  
pool is based is fair, honest, and rea-  
sonable. With the faith of the grain  
growers behind it, the pool is bound  
to be a success.

## 82 REASONS WHY THE FORD CAR IS THE BEST BUY

IMPROVEMENTS ON THE FORD DURING 1926 UP TO DATE

1. Hotter Hot Plate Vaporizer
2. Special Oil Retainer (stops oil leak at crank shaft)
3. Improved Fan Pulley
4. Improved Cylinder Head Outlet Connection
5. Improved Fan (blade pitch increased)
6. Oil Box Under Hood
7. Redesigned Fifth Assembly
8. Redesigned Ammeter
9. Redesigned Horn Assembly
10. Valve Cover Plug (no hole) Quieter
11. Wider Brake Drum
12. Transmission Cover Bolted to Engine Block
13. Quick Change Band Brake redesigned
14. Magneto Contact Assembly redesigned (screws into cover)
15. Clutch Drum Keys protected from wear by hardened steel shoes
16. Pedals redesigned
17. Quick Change Band Brake redesigned
18. Hand Brake Lever Assembly set ahead
19. Larger and Wider Emergency Brakes
20. Emergency Brakes fixed
21. Rear axle Reducer Washer (to increase efficiency and life of leather dope washer)
22. Redesigned Porches (to lower centre of gravity)
23. Redesigned Rear Radius Rods
24. Redesigned Emergency Brake Cam
25. Spline Bodies Redesigned to lower centre of gravity 1 1/2 inch
26. Redesigned Front Spring to lower centre of gravity 1 1/2 inch
27. Radiator Apron Bolted to Front Spring Clip
28. Frame Harder
29. Fender Irons (channel construction)
30. Radiator redesigned (4 tubes staggered)
31. Radiator Cap and Gasket redesigned (will not leak)
32. Redesigned Engine Hood (more roomy—cooler engine)
33. Leather Bumpers Rear Corners (hood)
34. Weather Strip Cool Ventilator
35. Fenders redesigned (heavier, bolted in six more places)
36. Front Fender Braces (full vibration and rattle)
37. Head Lamps redesigned (adjustable)
38. Running Boards redesigned (wider and heavier)
39. Running Board Shield redesigned
40. Gas Tank Moved to Under Cover
41. Sediment Bulb redesigned and under engine hood
42. Safety Drain from gas tank fire recess
43. Steering Gear Gasket redesigned
44. Dash Redesigned (stronger material)
45. Balloon Tires standard equipment
46. Wire Wheels redesigned
47. Tire Carrier Redesigned
48. All Steel Bodies
49. Lacquer Finish
50. Doors (open) hinges toward front—more convenient
51. Steering Column more securely braced
52. Upholstery redesigned (cheaper material)
53. Seat Cushions Deeper—more comfortable
54. One Piece Windshields
55. Centre of Gravity, i.e. frame, lowered 1 1/2 inch with former road clearance

Twenty-six other improvements giving greater efficiency to the car

## Not in a PRICE Class but in a VALUE Class

McLAUGHLIN-BUICK stands alone—not in its price, which it shares with others—but in its VALUE, which it shares with none.

During the past nine years the public of this continent has invested more of its automobile dollars in McLaughlin-Buick than in any other make of gear-shift car.

And McLaughlin-Buick, true to its purpose and promise, has constantly striven to improve its quality—to better its value. The economies effected through McLaughlin-Buick's volume of sales have been utilized to enrich still further the quality of the car—by such improvements as the Sealed Chassis, the Torque Tube Drive, Mechanical Four-Wheel Brakes, an Engine Vibrationless Beyond Belief and the increased luxury and refinement of McLaughlin-Buick Fisher Bodies.

McLaughlin-Buick is today, as always the ONLY car in its value-class.

## To Members of the Wheat Pool

Once each year Wheat Pool members are called to choose the men they want to administer the affairs of the Pool for the coming year. To successfully direct a business of this magnitude requires that men of outstanding merit be chosen. They must be chosen by the Pool members themselves. It is your job. It is both a privilege and a duty. Don't neglect it!

The system of electing delegates was changed at our last annual meeting. Instead of sending each member a ballot card we are now required to send him a nominating paper. You will find this on the back page of the membership list. Full instructions for using it will be found on the inside front cover and on the back page. Note that the nomination of any member must BE SIGNED BY TEN MEMBERS, and the nominee must sign in the place provided on the nominating paper. All nominations must be returned to Head Office not later than Wednesday, June 15th next.

The first thing is to see that the member you want as your delegate is duly nominated, then get your nomination paper into Head Office before June 15th, then watch for your ballot paper about the first of July. When it reaches you, use it promptly, being careful to follow the instructions which will accompany it.

Alberta Co-operative  
Wheat Producers Ltd

HEAD OFFICE—LOUGHED BUILDING, CALGARY

## What do you get for the price you pay?

VALUE is not a matter of price alone. It is the way the price is paid. The Chevrolet is low in price—but not at the expense of quality. It is economical—because it is not cheaply built. It is expensive in value because it gives more of the things you want for the price you pay.

Fast and smooth, really counts with Chevrolet. There is economy in the distinctive V8 engine. In the long, low lines in the right balance. In the smooth, powerful, vibrationless engine. In the smooth, powerful, vibrationless engine. In the smooth, powerful, vibrationless engine.

### Buying by Instalments

Buying on the "instalment plan" has become so general that it applies to food as well as furniture; to motor cars as well as homes.

Life insurance is buying an income, an estate, a fortune, on the instalment plan. But with this difference from all others.

It is the only thing that a man can buy on the instalment plan that his wife will not have to pay for after his death.

The title to the property passes to the buyer with the first payment. And all payments cease and the estate becomes the absolute property of a man's beneficiaries at his death.

Life insurance is safe, safe buying on the "instalment plan."

RED ROSE ORANGE PEKOE is extra good.

## Blue Sky Laws Badly Needed

With better than now prevailing and business depending in all directions, wealth plentiful and wages good, high pressure salariness of stock is at its height of compulsion and again much in evidence. Some of the propensities left before people, who have at face dollars, to invest are usual enough; others are speculative to a degree, with the probabilities that any money invested will be lost, or at best, will not be productive of dividends for years to come. The money playing the prospectus, and to the game of the lunatic investing, the possibility that the investment is a decidedly risky one. In fact, not an investment at all.

Unfortunately, it is an extremely difficult matter for anybody but an expert, or those who make it their business to keep fully informed, to distinguish between the good and the bad of the stock selling propositions presented in the general public. The only safe course to follow before making investment in any stock is to consult a better or some reputable financial institution.

It is furthermore unfortunate that the company laws of Canada do not provide adequate protection of this public against these professional promoters of questionable stocks and securities, and as a result thousands of Canadians every year are robbed of millions of hard earned savings.

For example, some years ago the Saskatchewan Legislature passed an act prohibiting the sale of stocks of any kind which were not registered with the Government and obtained the approval of that board and its consent to the stock being offered for public subscription. Certain companies incorporated under Dominion charters, and equally powerless to prevent it, so as to protect their stock-selling activities, and upon an appeal to the courts, the Saskatchewan law was declared invalid in so far as companies incorporated at Ottawa are concerned. The situation, therefore, is that any company having a financial charter and whose stock the Saskatchewan Government Board will not permit being offered for sale, has only to obtain Dominion incorporation at Ottawa to defy the Saskatchewan law and sell any kind of stock it likes, good or bad.

It will be recalled that under the same situation existed before the two laws first adopted regarding liquor laws. The provinces could and did prohibit the retail sale of liquor, but they were powerless to stop its manufacture within their boundaries, and equally powerless to prevent its sale in other provinces. The same situation exists today with regard to the sale of stocks. The Dominion Government is powerless to prevent the sale of stocks in any province, and the provinces are equally powerless to prevent the sale of stocks in other provinces.

There is need for a similar enactment in relation to Company Incorporation. All that is needed is a very simple amendment by the Parliament of Canada to the effect of making it so that no company can be incorporated in any province unless the name of the company is first approved by the Dominion authorities, and the name of the company is first approved by the Dominion authorities, and the name of the company is first approved by the Dominion authorities.

Representatives have for some months past been unable to secure Provincial Government regarding the operations of one of these high pressure stock selling concerns, and protesting against what amounts to legalized robbery, but all the Provincial authorities can do is to admit that they are powerless because the Company in question operates under a Dominion charter.

And within recent weeks this very Company has been shown up in its financial statements as having received over \$100,000 from Canadian citizens, of which considerably more than \$100,000 went into the pockets of a subsidiary company as "commission" for selling the stock. In fact, the parent manufacturing company has less than one dollar to show for every two dollars invested in the public. Not only so but the Company has never declared a dividend, and for every dollar's worth of stock it has issued, it has paid out \$2.00 in commissions to the salesmen.

It is high time that a certain careful minister of Ottawa, well informed from the influence of a reactionary and autocratic policy, law, and drafted legislation to be presented to Parliament at its next session (providing and supporting the Province in their efforts to put an end to this stock selling and legalized robbery) which today is a blot on the fair page of Canada.

**Couple Taught/forty Years**  
Running out a career of 40 years as teachers together, Mr. and Mrs. Robert Jackson have just retired from the staff of the Ardara, P.E.I. and public schools, and will reside in Belfast, Jackson was principal and his wife number assistant, and they and they taught in Ardara for 23 years.

The farmer can get his grapes when it has no more to hand out.

## Canadian Offices in London

Offices of Immigration and Trade and Commerce May be Combined

Hon. Robert Porter, Canadian minister of immigration, and Hon. James Macleod, minister of trade and commerce, while in England this summer, will jointly consider the possibility of combining in one building the branch offices in Britain and on the continent of their respective departments. It is understood, that a procedure would eliminate duplication of premises and to a certain extent duplication of office staffs.

Mr. Macleod has already received intimations that the allocation of \$100,000 for advertising Canadian goods in Britain will not go very far in making a widespread appeal. It is understood that one extensive advertising firm in the United Kingdom, which has been asked to take a large space for general advertisement, Canada should have a proportion of the cost of whatever amount of space call attention specially to Canadian goods.

Life Cannot Be Defined As Progress, says London University

That a living organism is not to be differentiated from a non-living substance as readily as is commonly supposed was demonstrated by Professor J. H. Huxford, of the University of London, in a lecture on "Biological Aspects of the Nature of Life."

He pointed out that the difference between the living and the non-living is not a matter of degree, but of kind. The living organism is not a mere collection of atoms and molecules, but a complex system of organized matter. The living organism is not a mere collection of atoms and molecules, but a complex system of organized matter. The living organism is not a mere collection of atoms and molecules, but a complex system of organized matter.

## See New Diamond Fields

Fearing Price Cut Syndicate Will Not Divulge Location of Mines

Diamonds valued at almost a million dollars, recently discovered in England from a new field in the Orange river area of South Africa which will never be opened up. An untold treasure in gems will be revealed there for all time because the diamond syndicate fear the market would be flooded and values of the rich pockets be depleted.

Alibi the presence of this field has been kept a secret because it was feared that there would be a great rush to the region and hundreds of diggers would perish in the surrounding deserts, which is remote from any settlement.

Recently a syndicate acquired the rights, but they have decided to seal up the discovery following the market crash caused by the Gratiotfield strike. The Gratiotfield field is said to be in the Orange river area.

The exact location of the deposits is now known only to the syndicate and the government and a handful of private diggers who have been forbidden to prospect in the district.

Danger Motorists Should Avoid

Many Accidents Caused by Habit of "Cutting In"

"Cutting in" is one of the greatest causes of accidents on the highways at the present time. There are two ways of passing cars that lead to danger and try to squeeze into a space in the line of traffic that is already crowded. The result is that not only the car being passed but also all other cars in the immediate vicinity are forced to "manoeuvre" to avoid piling up on each other.

It is appreciated that some drivers do not wish to poke along behind a slower moving car, but that in order to pass, they should make sure that they will be able to round the car in front and get in the right lane without causing danger to everyone else on the road.

## Survey of Hudson Strait

Objection is Taken to the Term "Arctic" in Describing Conditions

President J. A. Stuenkel, of the Saskatchewan section, United Farmers of Canada, protests against the Canadian Press dispatch of April 28, regarding the air survey of Hudson Strait on the ground that it describes the conditions of the strait as "Arctic for most of the year."

In reply, J. E. H. Lively, general manager of the Canadian Press, says: "The word 'Arctic' is a geographical term, and is not a description of the weather. It is used in the same sense as 'tropical' or 'temperate'." He says that the word "Arctic" is used in the same sense as "tropical" or "temperate."

Miller's Worm Powder can be used on infants in the state of convalescence. It is infested with worms can take this preparation without a qualm of the stomach and will find it a very pleasant and safe protection from these destructive pests which are responsible for much sickness and great suffering to infants of little age.

The good old Smith family means to be disappearing in Washington. A new city directory just out shows only 2,000. These—more 2,000 in the directory published a year ago.

## Low Brothers Neptunite

Neptunite Varnishes will create that atmosphere of elegance in your home that you have desired for so long.

Neptunite Varnish will  
**NEVER TURN  
WHITE**

under the Boiling Water, Ice and Acid Tests. More than all this, Neptunite is the only varnish to withstand the Hot Iron test, proving conclusively that Neptunite is as **INDESTRUCTIBLE** as Varnish can be.

You will readily see, therefore, that Hot Dishes resting inadvertently on a table top finished with Neptunite will leave no disfiguring white mark or mar the polished finish in any respect.

Dr. and Mrs. B. E. Barlow and children were in Calgary this week and attended the musical festival.

Phone 98 for highest quality groceries and prompt service. Jack Torgan.

### MATRIMONIAL ADVERTISEMENT

A charming little Miss from the Middle West would like to correspond with some handsome young fellow with a view to matrimony. I have a husband at present but am growing tired of him. Will change as soon as I find one that better suits me. Future husband must pay all divorce bills and all expenses to Reno. I have a wonderful past and am looking for the same kind of a future. Floatingly plump—height five feet and eleven inches—weight 265 pounds. I have been told by my friends that I have a fine figure but I am not vain in her head. My hair is all my own. Money no object—how much have you? Have been told that I resemble Nina Naldi.

### THE WESTERN CROP

WINNIPEG—It is estimated that 2,500,000 acres will be sown to crops this year in Western Canada, an increase of 2,500,000 acres over 1925. Seeding operations are now general throughout the west.

**STRUTHERS' FURNITURE EXCHANGE** has customers who want used dressers, tables and other useful articles. Let me know. Answer lot of new and used furniture will arrive on Saturday. Better see them there may be something that you need.
